

Heraldry

Here is a collection of valuable heraldry links posted by members of Connacht. Together, these websites explain shield field divisions, colour combinations and what particular items, and their placements symbolize. As these sites are very extensive, it is important to ensure that the field division, symbols and colours you like can be registered within Adria, as not all items and divisions are. Please keep in touch with the Herald Minister of Connacht for your progress through the heraldry process to ensure your device will pass at the Imperial level.
